

KWAZULU-NATAL PROVINCIAL GROWTH AND DEVELOPMENT PLAN CATALYTIC PROJECTS

Public and private sector **PGDP Catalytic Project list as at end Quarter 1, 2017-2018**. The submission, registration and review of PGDP-Catalytic projects is an open process. Public and Private Implementation Agents are invited to submit PGDP-Catalytic Projects. The next update will be as at September 2017 for Quarter 2 2017-2018

There is a very clear and emphatic emphasis on processes and mechanisms to enhance implementation of the PGDP. Whilst recognising the value of the long-term vision and strategy, as well as targets setting a trajectory to 2035, there is an equal recognition of the need for a clear implementation plan with a focus on immediate action and the attainment of short term gains. One of the processes to be pursued in this regard is to ensure that the PGDS goals and objectives are driven through a range of strategic interventions and infrastructure Catalytic Projects.

In the context of the PGDP, an infrastructure Catalytic Project is defined as a project of significant scale (i.e. its reach) and scope (i.e. impact on employment, services, economic and social investment, and/or rates), thereby displaying some or all of the following characteristics:

- It makes a substantial impact,
- It provides leverage and/or creates multiplier effects,
- It has the power to radically activate development (social, economic or both),
- It significantly impacts spatial form,
- It creates jobs, and increase land value; and contributes to the achievement of the vision and goals of the Province

It is also acknowledged that projects cut across the goals and objectives and seldom only contributes to a single PGDS goal or objective. It is therefore imperative to prioritise and give specific preference and attention to projects that impact on as many of Province's strategic goals as possible

It is further recognised that there are different categories of Catalytic Projects. Some are mostly government projects driven through social need and demand, whilst others are largely private sector driven to capitalise on economic development opportunities. In this context three types of catalytic projects have been identified:

Game Changers

Major enablers

Major Needs (of a high order or significant magnitude)

Examples:

Catalytic Projects			
	Game Changers	Major Enablers	Major Needs
	<p>This applies to projects that will structurally change the economy and the way we interact with it</p>	<p>This applies to projects that will unlock downstream infrastructure services</p>	<p>This applies to projects that are meant to address wide-scale regional needs or significant private sector project</p>
National and parastatal focus areas/ competencies	<ul style="list-style-type: none"> • Universities • Airport Development • Port Development • Intermodal Development • Mining Licenses • Refinery • IDZs / SEZs • <i>Flagship Integrated Human Settlements</i> • <i>New Towns</i> • <i>IRPTN / IPTN</i> 	<ul style="list-style-type: none"> • Class 1 roads upgrade • Freight Rail upgrades • Pipeline infrastructure • ICT infrastructure • Energy Upgrades / Power plants / Subs • Dam development 	<ul style="list-style-type: none"> • Human Settlements • Higher education facilities (excluding Universities) • Health facilities • Business incubators • Skills centers
Provincial competencies	<ul style="list-style-type: none"> • Universities • Airport Development • IDZs / SEZs • Technology Hubs • Industrial Hubs • Cluster Parks / Industrial Parks • AgriZone / Agri-Parks • <i>Flagship Integrated Human Settlements</i> • <i>New Towns</i> • <i>IRPTN / IPTN</i> 	<ul style="list-style-type: none"> • Class 2 & 3 roads upgrade • Intermodal • Energy Upgrades • Dams / Water transfer schemes • WWTW 	<ul style="list-style-type: none"> • Human Settlements • Hospitals • Small Town Rehabilitation & Urban renewal • Business incubators • Skills centers
District, Metro and Local Govt. competencies	<ul style="list-style-type: none"> • Universities • Airport Development • IDZs / SEZs • IT / Technology Hubs • Industrial Hubs • Industrial Cluster development • Intermodal • New nodal development • <i>Flagship Integrated Human Settlements</i> • <i>New Town Centres</i> • <i>IRPTN / IPTN</i> 	<ul style="list-style-type: none"> • Class 3 & 4 roads upgrade • Energy Upgrades • Water transfer schemes • WWTW • Substations 	<ul style="list-style-type: none"> • Human Settlements • Urban Renewal • Business incubators • Skills centers

The significance of a project being awarded “Catalytic” status is that it will confirm that such a project had been subjected to a screening and prioritisation process of the Provincial Planning Commission (PPC) and the Infrastructure Master Plan (IMP) Team. As such, Catalytic Projects will receive preferential facilitation support and guidance, in recognition of the contribution such a project can make to achieve the growth targets of the Province. These Catalytic Projects therefore form an integral part of the PGDP.

The registration form for the nomination of Catalytic Projects can be accessed from the KZN Provincial Planning Commission website on www.kznppc.gov.za. There is no closing date for nominations and the assessment of projects will be undertaken as nominations for registration are received AND will be updated on a quarterly basis and will also be published on the Provincial Planning Commission website.

Public Sector Projects

PROJECT NAME	COMMUNITY/ CITIZEN IMPACT	DISTRICT	MUNICIPALITY	TYPE
AGRI-PROCESSING VILLAGE AT FRANLIN, KOKSTAD	MUNIC-SUBREGION	HARRY GWALA	GREATER KOKSTAD	MAJOR NEED
